A new destination is waiting for us, another challenge, i.e. arriving to the far most northern part of the European Continent, driving beside the beautiful coast of Norway. This country offers an amazing nature. The period we've chosen is July-August, the moment when the days are very long and basically you wake up and go to sleep with sun light. It is necessary to be equipped for the cold weather, as even if it is summer, temperature can go below 10° C (50°F). We will start from Oslo, the Capital of Norway, where our motorbikes will be waiting for us and from there, we will start our incredible adventure.
